PSC-PLMS Portable Infrared Thermometers are ideal

for Automotive Professionals or for the home mechanic

AUTOMOTIVE

Troubleshooting and Diagnostics with Portable Infrared Thermometers

PSC-PLMS Series

The PSC-PLMS is a fundamental tool for any automotive technicians. Safe, Non-contact temperature measurements allow for quick and easy troubleshooting. Do it Professionally & Correctly! Always be a step ahead of others!

Engine Diagnostics

Measuring the temperature of the engine manifold can help define:

- ✓ Low Compressions
- ✓ Correct Fuel/Air Mixtures
- ✓ Misfiring Spark Plugs
- ✓ Obstructions on Duel Injectors

Catalytic Converter Diagnostics

Measuring the temperature before and after the catalytic converter, and knowing the difference, can help to verify the correct operation or identify problems in the system.

Climate Diagnostics

- ✓ Heater Outlets
- ✓ Air Conditioning Outlets
- ✓ Coolant Radiator Checks

Cooling System Diagnostic

- ✓ Radiator
- Scan the area so you can easily identify any obstructions
- ✓ Thermostat
- Check operation temperatures
- ✓ Coolant Sensor
- Verify instrument Panel Meter

Tire, Brake and Bearing Diagnostic

- ✓ Tire and Brake Temperatures Uniformity
- ✓ Asphalt Temperatures
- ✓ Bearing Overheating

Defroster and Insulation Diagnostics

- ✓ Rear window and Driving mirror defrost
- ✓ Asphalt Temperatures
- ✓ Fuse Box Temperatures
- ✓ Temperature Insulation windows/colors

Electrical Circuit Diagnostics

- ✓ Battery Contact Overheating
- ✓ Fuse Box Temperatures
- ✓ Electronic Circuits
- ✓ Electrical Connectors
