## MS Series Infrared Thermometers

for Preventive Maintenance Applications

# PREDICTIVE & PREVENTIVE MAINTENANCE

*Troubleshooting and Diagnostics with Portable Infrared Thermometers*

### MS Series Hand Held Infrared Thermometers

The MS Series are a fundamental tool for ANY heating engineer, plumber, or any other HVAC technician. Choose between 3 models, MS, MS Plus

or the MS Pro all feature ergonomic design, laser sighting, wide temperature range as well as alarm functions. Non-contact temperature measurements allow for fast and easy troubleshooting. This unit pays for itself in no time! Stay ahead of others with the right equipment.

### Electrical Maintenance

- ✓ Circuit breakers or fuse overheating due to currents that are close to their maximum capacity
- ✓ Switches & Gears
- ✓ Faulty Termination
- ✓ Ballast Overheating
- ✓ Hot Spots

Bad electrical connections due to any loose or corroded terminals, which can generate heat. Measuring this temperature with a safe, non-contact infrared thermometer will help to identify any trouble spots quickly & effectively.

### Equipment Maintenance

- ✓ Motors
- ✓ Gears
- ✓ Bearings
- ✓ Ovens
- ✓ Boilers
- ✓ Freezers
- ✓ Moving Parts

### Process Maintenance

Check and monitor any products during the manufacturing process, such as food, rubber, plastic, etc.

### Building Maintenance

- ✓ Wall and Window thermal insulation
- ✓ Air conditioning & Heating Balancing
